Suites and tests results:
  - AppComponent :
    * select page should have no accessibility issues : ok

* should have three levels of growl popup notifications : ok
    * should be router link : ok
      should not be router link : ok
    * should set title correctly : ok
 - AuthService :
    * should construct : ok
    * should have eBilling authorization : ok
* should not have eBilling autherization : ok
 - BreadcrumbService :
    * should reset : ok
    * should push crumbs : ok
 * should pop crumb : ok - Database:IdGen :
    * generates with no seed : ok
 * generates with seed : ok
- Database:MemoryDb :
    * simple add and dumpdb : ok
    * simple add and get : ok
    * simple add, change id, and get : ok
* 2 adds and getAll : ok
    * add, get, and update : ok
* 3 adds, delete, and getAll : ok
* expects stats : ok
    * sample w/o data : ok
* 20 adds and sample : ok
    * 3 adds and query : ok
* add, updateall, get : ok
    * get tokenized data : ok
    * get tokenized data (terms) : ok
    * get tokenized data (scan) : ok
    * get tokenized data (top) : ok
    * get tokenized data (all) : ok
    * get tokenized data (all, chained) : ok
* get tokenized data (filter) : ok
    * get tokenized data (highlight) : ok
   MenusService :
    * should construct : 2 ok
    * should get data : ok
    * should get eBilling data and not ePharmacy : ok
 - EnvironmentService :
* should construct : ok
    * should get data : ok
 - ErrorModalComponent :
     start div should have no accessibility issues : ok
    * notified div should have no accessibility issues : ok
      clipboard div should have no accessibility issues : ok
 - ErrorService :
    * should create : ok
 - ExtLinkModalComponent :
    * should have no accessibility issues : ok
    * should zero out seconds : ok
    * should call cancel on click : ok
    * should call cancelFocus on click : ok
 - HomepageComponent :
     expects rendered quick news list : ok
    * div 1 should have no accessibility issues : ok
 - LoggerService :
  * expects one output from LogLevel.Error : ok
    * expects two outputs from LogLevel.Warn : ok
* expects three outputs from LogLevel.Info : ok
    * expects five outputs from LogLevel.Debug : ok
* expects UPPERCASE : ok
    * expects JSON output : ok
 - LoggingApiService :
    * add log : ok
    * get all logs : ok
      get all logs with paging : ok
 * get all logs with paging using sample data (ensure page 0 is page 1 and page 2 is not page 1) : ok - SearchComponent :
    * should have no accessibility issues : ok
 - BreadcrumbComponent :
     should have no accessibility issues : ok
 - CalendarComponent :
      should have no accessibility issues : ok
 - DataTableComponent :
     * should have no accessibility issues : ok
 - DatePicker :
* set valid date : ok
```

```
* open/close selector : ok
      select today button : ok
    * select previous month : ok
     select next month : ok

    * options - aria label texts : ok

* options - allowSelectionOnlyInCurrentMonth : ok
    * defaultMonth - initially selected month : ok
    * disabled - disable component : ok
    * placeholder - placeholder text : ok
       "selects" the date if the selected date is not the same as the input date on input changed and the input date is valid : ok
  ModalComponent :
      should have no accessibility issues : ok
      should call ngOnChanges : ok
should tab through buttons : ok
    * should call headerCloseClick : ok
* should call footerOkClick : ok
    * should call footerCancelClick : ok
   PaginatePipe: :
    * should truncate collection : ok
    * should register with the PaginationService : ok
    * should modify the same instance when called multiple times : ok
   * should use default id if none specified : ok
* should not break when totalItems is specified for in-memory paging : ok
   * should allow independent instances by setting an id : ok * should return identical array for the same input values : ok
   - collection modification :
       * should detect simple push or splice without insert : ok * should detect value changes in collection : ok
    - server-side pagination :
 * should truncate collection : ok
       * should display page 2 : ok
    - unexpected input: :
        should pass through non-array inputs : ok
         should work with a string as itemsPerPage arg : ok
should work with a string as currentPage arg : ok
         should work with itemsPerPage and currentPage as accessors : ok
    - DOM tests: :
       * should display the correct number of items per page (10): ok

* should display the correct number of items per page (50): ok

* should display the correct number of items, after itemsPerPage & currentPage change: ok

* should display the correct items on init: ok

* should not mutate the collection: ok
* should default to page 1 if currentPage not set : ok - PaginationControlsComponent: :
       should display the correct page links (simple) : ok
      should display the correct page links (end ellipsis) : ok should display the correct page links (start ellipsis) : ok
    * should display the correct page links (double ellipsis) : ok
```

```
* should add "ellipsis" class to ellipsis links : ok * should update links when collection size changes : ok
   * should update the currently-active
page when currentPage changes : ok
     should highlight the currently-active
page when currentPage is passed as a numeric string : ok
 * should update the currently-active
page when currentPage becomes invalid (too high) : ok
      should allow the tas-pagination-controls to come before the PaginatePipe : ok
   * should allow multiple independent instances (controller test): ok
* should allow multiple independent instances (template test): ok
  * should allow multiple independent instances (template test) : ok
* "autoHide" should be boolean : ok
* "autoHide" should work with non-data-bound values : ok
* "autoHide" state should be reflected in default template : ok
* "directionLinks" should be boolean : ok
* "directionLinks" should work with non-data-bound values : ok
* "directionLinks" state should be reflected in default template : ok
* "responsive" should work with non-data-bound values : ok
* "responsive" state should be reflected in default template : ok
- custom labels :
   - custom labels :
      * previousLabel should bind in correct locations : ok
         nextLabel should bind in correct locations : ok
      * screenReaderPaginationLabel should bind in correct locations : ok
      * screenReaderPageLabel should bind in correct locations : ok * screenReaderCurrentLabel should bind in correct locations : ok
  PaginationControlsDirective: :
     should warn on interaction when an unknown id is used : ok
   * should warn on interaction when an unknown id is used : ok - template api :
 * "pages" should be an array of page objects : ok
 * "maxSize" should be a number : ok
 * "qetCurrent()" should return current page : ok
 * "setCurrent()" should emit pageChange event with correct value : ok
      * "previous()" should emit pageChange event with correct value : ok
* "next()" should emit pageChange event with correct value : ok
* "isFirstPage()" should return the correct value : ok
* "isLastPage()" should return the correct value : ok
     * "getTotalItems()" should return the correct value for in-memory mode : ok
* "getTotalItems()" should return the correct value for server-side mode : ok
custom templates :
      * should display the correct page links (simple) : ok
* should display the correct page links (end ellipsis) : ok
      * should display the correct page links (start ellipsis) : ok
      ^{\star} should display the correct page links (double ellipsis) : ok
  PaginationService: :
     should register the instance : ok
   * getInstance() should return a clone of the instance : ok
   * setCurrentPage() should work for valid page number : ok
* setCurrentPage() should work for max page number : ok
   * setCurrentPage() should not change page if new page is too high : ok
   * setCurrentPage() should not change page if new page is less than 1 : ok

* setTotalItems() should work for valid input : ok

* setTotalItems() should not work for negative values : ok
  ReportFilterComponent :
