TA6829 - Develop ICDs with FSC for the agreed upon transactions

Link to task in Rally: https://rally1.rallydev.com/#/120708787896d/detail/task/192873056212?fdp=true

Work on this task includes assembly of transactions into their functional groups for ePayments, ePharmacy, eInsurance eBilling.

Team meetings formed and conducted to introduce our method of development including forwarding the proposed mappings to FHIR resources to applicable teams.

Requesting the teams review the proposed mappings for efficacy.

Returning the results of review to the TASCore team who will begin laying out and formatting the ICD according to VA standards.

TRANSACTIONS BY Product Team

ePayments,

- 270
- 271
- 835
- ~~CCD+~~ not needed in TAS transaction only exists between FSC and Clearing House external to VA. Thought to be out of scope - awaiting product owner determination 2/16

ePharmacy,

- B1
- B2
- B3
- E1

eInsurance

- 270
- 271

eBilling

- 873
- 278-215
- 278-217
- 275 info to support a HC claim or encounter
- 275 info to support a HC service review (still awaiting official documentation)
- 276/277
- 277CA,
- 277RFAI
- 277STAT

At the end of spint 3, brand new transactions were presented to TASCore requiring additional mapping - registration messages, table updates etc.. Those also will be mapped like the others - work beginning in sprint 4.
